Education

2015-2019   Technical High school no. 9 Lotnicze im. Bohaterów Narwiku, in the profession of IT technician. Acquired E12, E13, E14 certificates. Main area of studies were networking, web applications, and data bases.

Work History

2018   Intern at Microsoft Polska in IT helpdesk dept.

My duties included: Help in servers management, promoting ideas on company's events, stocktaking devices and assembling new equipment. In free time I used to study programming.

2018-2019   Working on commercial image board web application.

My duties included: Design database, and distributed backend architecture on host and CDN servers, create linux(Ubuntu) scripts to build and automatically deploy app, configure and manage environments, create frontend code for desktop, mobile and PWA, create API to connect backend with frontend variants.

Technologies used: frontend – JS, CSS, PWA

                                    backend – ASP.NET core Razor pages, WebAPI, C#, Ubuntu Linux, MariaDB
